

Our branded look

plays up the "on the road" connection for our customer base and our quarterly point of sale material and signage options help you take full advantage of this.

We follow up

with the ongoing support of quarterly visits and retraining when you have employee turn over.

Additional five year warranty

on equipment purchased through us for our program. This means **NO travel or labor charges.**

Preventive Maintenance Visits

averts costly down time.

**Keeping you in business,
keeps us in business**

**ARE YOU
READY
to put your profits
in the fast lane?**

Fresh & Fancy Food Systems

launched the ROADIES chicken program after 22 years of experience in the specialty food service business.

Our complete program gives operators all the benefits of a Franchised Food Service Operation without any of the negatives:

- No Upfront Fees.**
- No Royalties.**
- No Advertising Fees.**

We provide all the elements for a profitable program.

You will start with a great product

our chicken is marinated, preserving all the flavor and moisture.

Our double breading preparation

locks in the flavor and moisture while coating the chicken in the great taste of our Northern style breading. This process delivers a great looking product that has an incredible four hour holding time in your food warmer.

We train your people, in your store

there's nothing better for your staff than having a Serve-Safe Trainer in the store going over procedures and working out logistical issues.

Choose from a selection of menu boards

that drive profits. You are free to add items that are popular with your customers.

You receive a promotional rebate

on every case of breading to promote your chicken operation.

Advertising, signage and promotions

are just a few ways we help you grow.

Have a ROADIES crew member stop by your location to go over how ROADIES is drivin' home the difference with a great Chicken program that can put your profits in the fast lane.
